PROFESSIONAL EXPERIENCE

SecurityScorecard (Series E; backed by Sequoia, GV, Silver Lake)

New York, NY

Product Manager – Platform & Ecosystem

February 2025 – Present

- Leading full-stack core platform (identity & access, automation engine, reporting, developer hub, core UI) used by 10+ product teams to power experiences for 3,000+ enterprise customers, enabling \$30M+ in new ARR
- Cutting security review cycles 50%+ through platform security/compliance investments, accelerating deal closure

API

- Owning product strategy for API platform processing 200M+ monthly requests; grew API customers by 60%+ YoY and launched new API threat intelligence products driving \$5M+ in new ARR
- Accelerating time-to-ship by 60%+ across engineering teams by building scalable API enablement platform with reusable components and AI-powered tooling

Integrations & Partnerships

- Leading portfolio of 80+ integrations and growing integration adoption 45%+ YoY; driving \$4M+ in GRR by deepening custom workflows while reducing infrastructure costs by ~67%
- Led cross-functional execution for OEM partnerships and customer integrations across Sales, CS, engineering, and partner teams, increasing average OEM deal size 30%+ and reducing partner time-to-launch from months to weeks

J.P. Morgan

New York, NY

Product Manager – Blockchain Payments (Kinexys)

June 2024 – February 2025

- Owned product strategy for blockchain-based check payments API platform, driving 200% transaction volume growth and 50% revenue increase through B2B market expansion, contributing to 8-figure acquisition
- Designed API workflows for new B2B payment use cases in direct partnership with enterprise bank clients, cutting integration time from months to weeks, accelerating deal closure, and growing platform client base 2X

Microsoft

Redmond, WA

AI Product Manager – Microsoft 365 Copilot

August 2022 – June 2024

- Led GTM for Copilot-powered 'Help Me Create' AI drafting assistant, driving ~10% increase in overall document creation and 5X increase in referrals to lesser-utilized M365 apps
- Owned end-to-end lifecycle for Generative AI features including roadmap, UX flows, KPIs, AI safety compliance; conducted user studies to validate designs and shipped to 100M+ enterprise users across multiple releases
- Drove partner app adoption on M365 platform, driving 30-50% MAU growth through product diversification initiatives and building development proposals that convinced partners to integrate with M365 ecosystem

PROJECTS & VENTURES

Cardzen AI – *Founder* | cardzen.ai

February 2025 – Present

- Built an AI-powered credit card optimization platform with 9 custom tool-calling LangGraph agents, helping cardholders maximize rewards and recover \$120+/year in missed credits across 100+ card programs
- Reduced multi-agent AI chatbot token usage by 50% and response latency by 40% while maintaining 95%+ task accuracy at production scale, instrumenting cost-performance tradeoffs with LangSmith tracing and evaluations
- Developed LLM-powered pipeline that automated structured card benefit data collection across 10+ issuers

3DP4ME (Nonprofit) – *Staff Software & Design Volunteer*

November 2020 – Present

- Led team of 9 to build HIPAA-compliant web app for managing 3D printed medical device manufacturing, serving hundreds of Jordanian children; designed campaigns/media raising \$1.2M+ and 10+ corporate partners/donors

Cover Me App – *Founder*

November 2018 – August 2020

- Built app achieving over 12,000 downloads, 500,000 app sessions, and \$3,500 in ad revenue in first year of launch
- Crowd-sourced cover & line system reduced avg. line wait time by 6 minutes and increased daily customers by ~12%

EDUCATION

University of Illinois at Urbana-Champaign, College of Engineering

August 2018 - May 2022

Bachelor of Science in Computer Science – Honors

Minor: Hoefft Technology & Management Program
